COBIT® 2019 Foundation

The world-leading business framework for the governance & management of enterprise IT

Duration: 2

The COBIT framework addresses both business and IT functional areas across an enterprise and considers the IT-related interests of internal and external stakeholders. Enterprises of all sizes can benefit from COBIT, whether commercial, not-for-profit or in the public sector. The just-released COBIT 2019 features many positive changes including modified principles, new design factors, updated goals cascade, modified processes (from 37 to 40), updated performance management, new detailed governance and management objectives. The COBIT 2019 Foundation course provides the ideal introduction to COBIT and provides full preparation for the Foundation Certificate exam.

Who Should Attend

This course is designed for:

- Any Business Executives responsible for IT Governance
- Professionals and Managers of IT Service Providers
- Risk and Security Practitioners
