

# MoR<sup>®</sup> Management of Risk Foundation

M\_o\_R considers risk from different perspectives within an organisation: strategic, programme, project and operational.

Duration: 3 Days

The 3-day MoR Foundation Course covers the principles, the approach and the processes of managing risk at the strategic, programme, project and operational level, and how to embed and review risk management within an organization, as described in the MoR guide.

Participants are provided with an annotated hard copy of the slides together with any exercises, examples and templates discussed or developed during the workshop, as well as a copy of the official Guide “Management of Risk: Guidance for Practitioners”, and a mock foundation exam paper.

## Who Should Attend

Anyone with an interest, and/or role, in embedding and reviewing how risk is managed throughout an organisation and in identifying, assessing and controlling risk at the strategic, programme, project and operational level within an organisation.

This includes:

- Portfolio, programme and project management offices
- Programme managers and project managers
- Business Change Managements and Business Analysis
- Investment Managers, Investment Analysis and Business Case Developers
- Front-line managers, middle managers and strategic managers

## Learning Outcomes

After attending this MoR training program you will be able to:

- Gain the confidence and ability to influence and shape risk management across an organisation.
- Encourage openness and discuss real business issues in a realistic manner to meet business objectives, improve service delivery and achieve value for money.
- Put an effective framework in place to make informed decisions about the risks that affect strategic, programme, project and operational objectives.

- Understand the nature and extent of risks facing a company and reduce the incidence and impact on the business.
- Continuously apply risk management to an organisation and simplify the process of making information available when decisions need to be made
