

COBIT® 5 Implementation Certificate Course

Duration **3 days**

Taking COBIT 5 to the next level.

The COBIT® 5 Implementation 3-day certification course is practitioner-level training for those who need to know how to apply the COBIT 5 framework.

Upon completion of the Implementation course and exam, candidates will be able to apply the COBIT 5 good practice continual improvement lifecycle approach to GEIT (Governance of Enterprise IT), tailored to suit the needs of a specific enterprise.

Learning Outcomes

This course provides a practical appreciation of how to apply COBIT 5 to specific business problems, pain points, trigger events and risk scenarios within the organisation.

Learn how to implement and apply COBIT 5 into your enterprise and how to effectively use it for client initiatives. Attendees will walk away with an appreciation of how to effectively use COBIT 5 for different organisational scenarios.

The course material is supported by practical exercises and case-based scenarios. Candidates learn how to apply the COBIT 5 continual improvement lifecycle approach to address requirements and establish and maintain a sustainable approach to governing and managing enterprise IT as “normal business practice”.

Who Should Attend

This course is designed for core IT professionals working in IT management and governance:

- Chief Executives
- Business management
- IT/IS auditors
- Internal auditors
- IT practitioners
- Consultants
- IT service managers
- IT/IS management
- Current COBIT 4.1 users needing to decide if they want to adopt COBIT 5
- Anyone interested in gaining a deeper knowledge of COBIT 5

Pre-Requisites

Participants should have experience in the IT governance domain and have attained the COBIT 5 Foundation Certificate.
